EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-13, 32-37 and 39 (renumbered as claims 1-20) are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art of record, the "Honda" reference, fails to teach each and every limitation of the instant invention. Specifically, Honda fails to teach the claimed apparatus further including a posture changing mechanism located outside of the process chamber, as claimed in independent claims 1 & 2; the process chamber being a double wall structure with inner chamber movable between the process position within the outside chamber and the retreat position outside the outside chamber, which is disclosed as an essential element of claimed invention, as claimed in independent claims 4 & 9; or the claimed wafer rotating device having a spin plate, a pivot, and a motor combined with a posture changing mechanism including a leg portion connected to a disc holding member, the disc holding member being connected to a stationary disc, as claimed in independent claim 39.

3. For at least the foregoing reasons, original independent claims 1, 2, 4, 9 and 39 (and claims dependent thereon) are believed to recite patentable subject matter.
